

YOUR SOLAR PROPOSAL

45.00 kW System

Prepared for:
Glenwood Village

Prepared by:
Jim Seely

Your Current Utility Bill

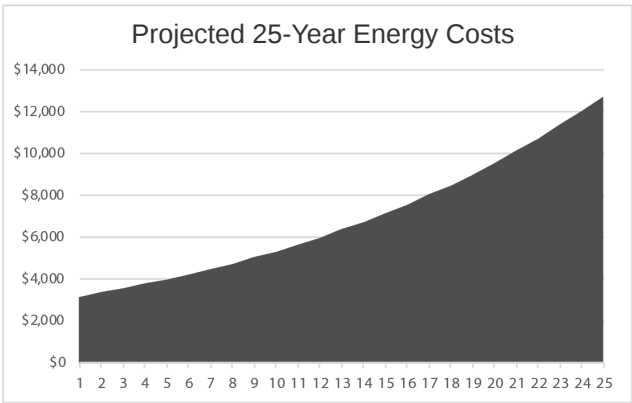

Expensive

Paying for utility power is essentially renting your power. The utility gets to set the price, and costs continue to increase over time. Solar energy gives you a new, more affordable way to manage your energy costs.

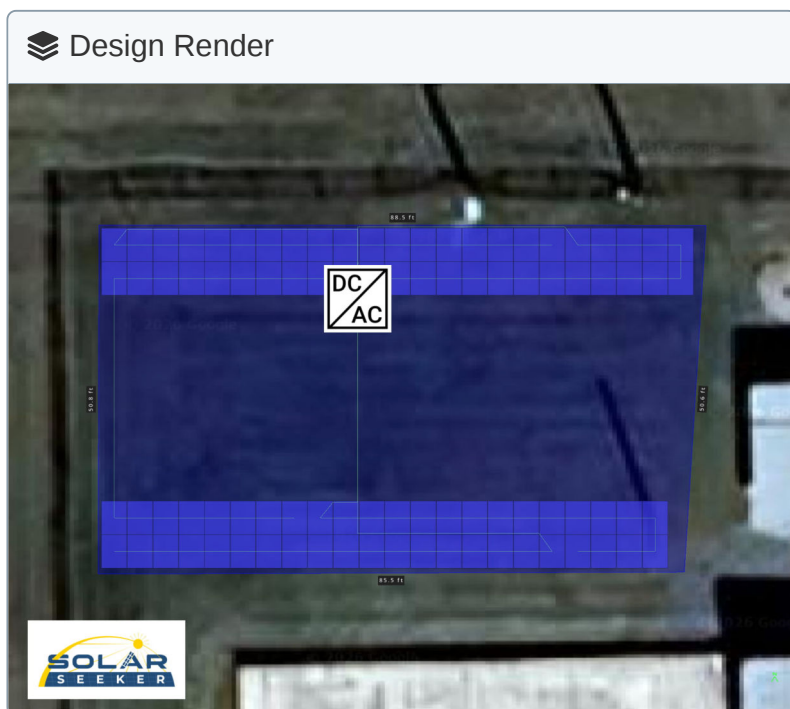

CA\$1,470.41 Average Monthly Electric Bill	CA\$17,644.90 Annual Electric Bill	CA\$735,200.75 25-Year Electricity Cost
---	--	--

Unpredictable & Outdated

The cost of generating electricity from traditional sources keeps going up as power generators have to dig for more and more challenging sources of energy. In addition to the huge environmental costs, fossil fuels are projected to get more expensive over time.

Your System Design

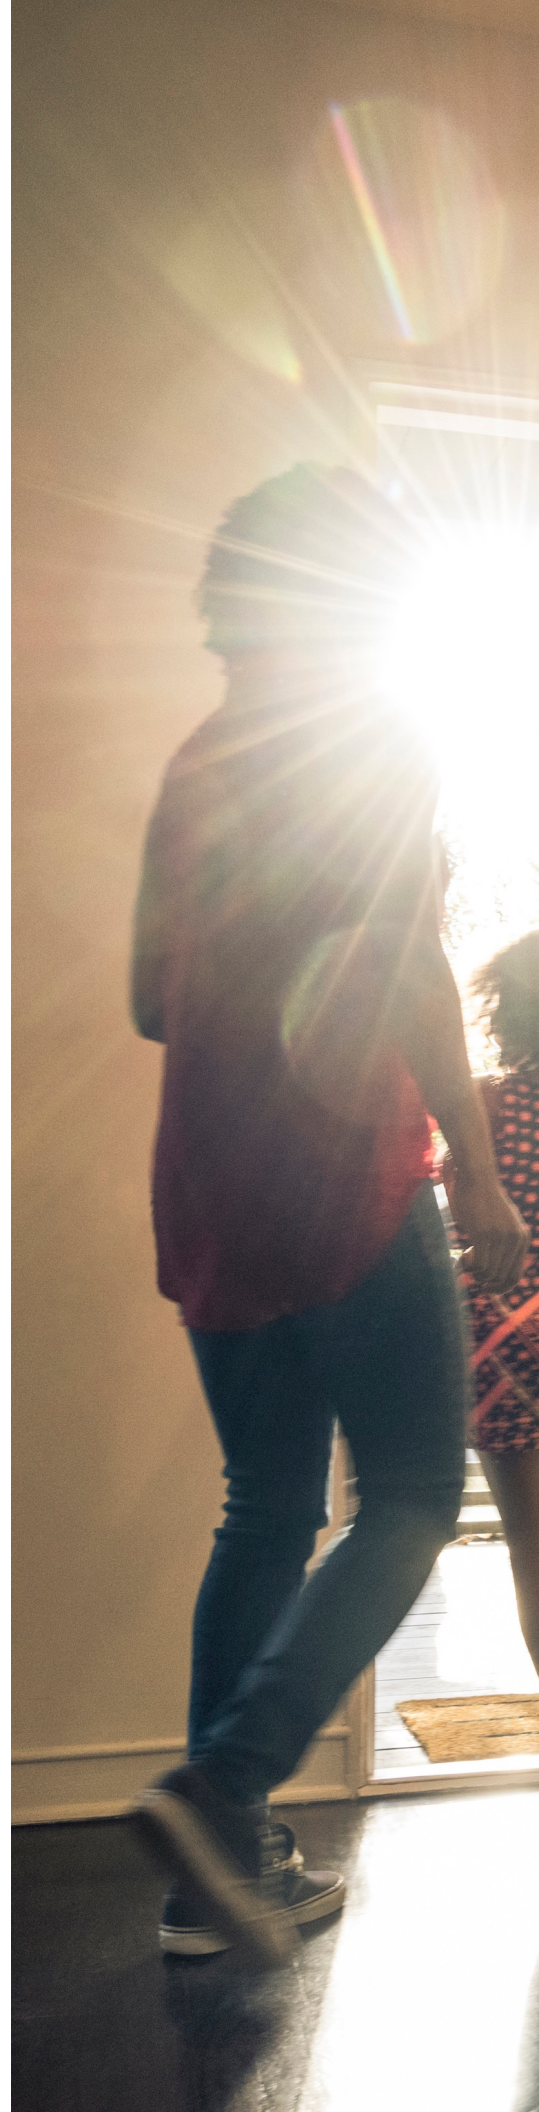

Details

Modules	(90) Thornova Solar
Inverters	(1) Solis
System Size	45.00 kW DC
Annual Energy Production	55.61 MWh
Energy Offset	110.32%
Utility Bill Offset	110.32%

Pricing

System Pricing:	CA\$88,200.00
Possible Incentives:	CA\$0.00
Net System Cost not including GST	CA\$88,200.00

Financial Analysis

4.0 years

Payback Period

CA\$150,110.

Usage vs. Solar Production

Energy Consumption

Lifetime Cashflow

Lifetime Production

Environmental Impact

Your solar array is a significant benefit to the environment. The following metrics help to quantify equivalent offsets:

395,985.2

Gallons of gasoline
consumed

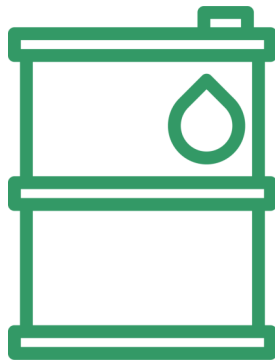

35,305.3

Lighbulbs switched to
LEDs

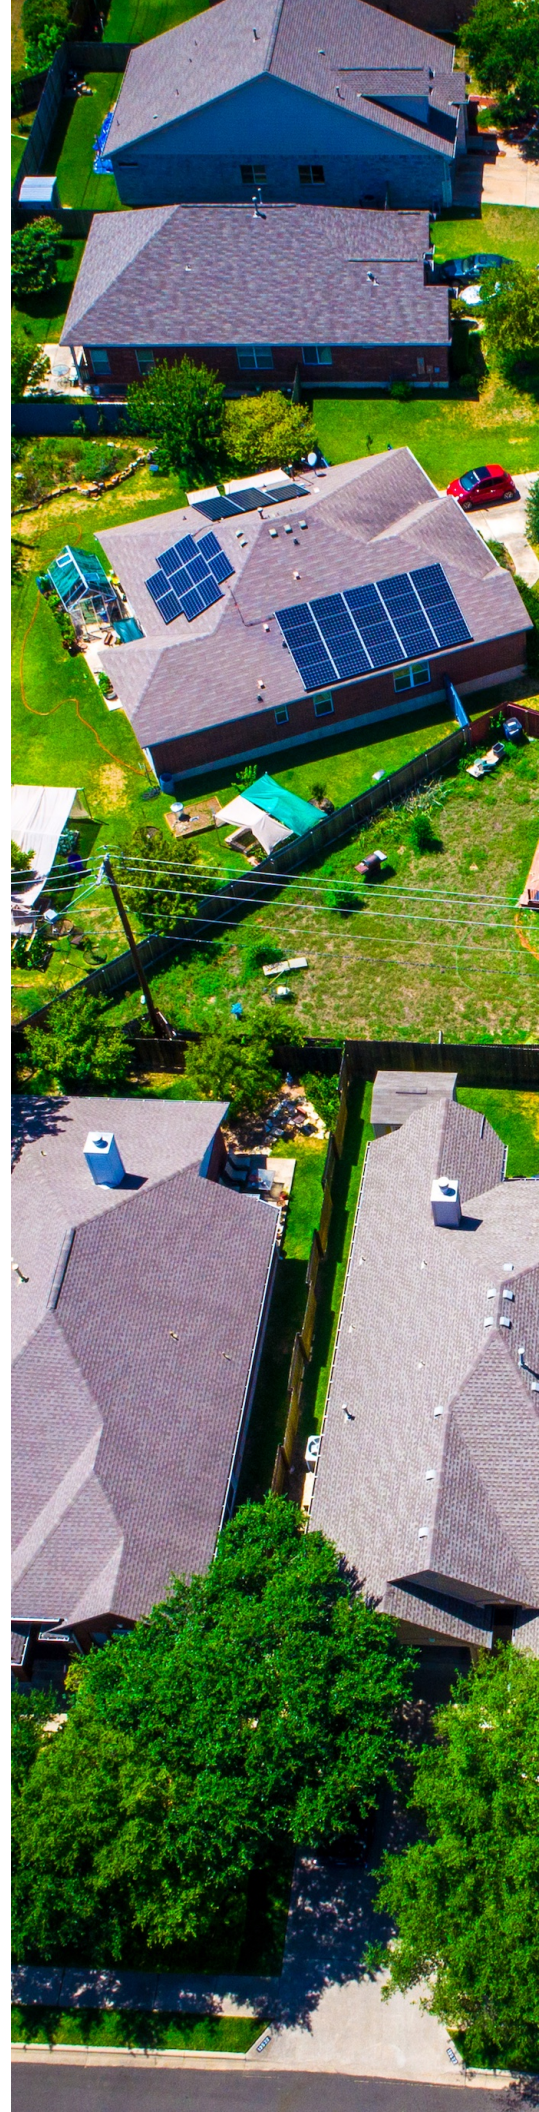

152,989.5

Tree seedlings grown for
10 years

2,144.5

Barrels of oil
consumed

1 YEAR INSTALLATION SERVICES WARRANTY FOR SOLAR SYSTEMS

At Solar Seeker Inc we offer a 1 year warranty on the installation services relating to our solar systems.

This means that if a solar system installed by us fails or breaks within 1 years due to defective performance of our installation services we will fix it or replace it.

Details of the warranties offered on each product which forms an element of your solar system such as solar panels, inverters and mounting frames will be given to you at completion of project. Panel come with a 25 yr manufacturer warranty and inverters have a 10 year manufacture warranty.

Transferability

This warranty is transferable by the original purchaser of the solar system to any subsequent purchaser of the premises at which the solar system is installed.

Effectiveness

This warranty only comes into effect once we have received all amounts owing from you in relation to the solar system and title to the solar system has passed to you.

This warranty will no longer be valid if:

- anyone other than an Solar Seeker Inc' installer, contractor or other authorized person works on (including repairing or altering) the solar system at any time; or
- you fail to comply with all reasonable instructions of Solar Seeker (whether written or verbal) in relation to the operation and care of the solar system.

Exclusions This warranty does not cover:

- repaired breaks or any joins to sensor wire or any damage caused to sensor wire;
- your existing electrical installation, wiring or fuse box;
- normal fair wear and tear;
- any malicious damage or abuse;
- damage caused by vermin, animals or pests;
- corrosion, oxidization, discolouration by mould, or the like;
- damage caused by 'acts of God', improper voltage or power surges, accidents or other acts beyond our reasonable control;
- any damage to your property caused by the solar system failing or breaking;
- any alterations to your property which are a necessary consequence of the provision of the installation services; or
- any damage of any kind that was not reasonably foreseeable or that could not have been expected to result from:
- We will not be liable to you for any personal injury or any loss or damage of any kind that was not reasonably foreseeable or that could not have been expected to result from the circumstances set out above.
