RE: Village Welcome Sign

This quote is for a metal sign to replace the **sign only** located on the NW corner of Centre St. & Main Ave.

I have provided a sample of the board I will be using.

This quote is taking into account that I will be provided with a digital copy of the logo pictured on the layout. Also, either having the existing sign removed & installed or assistance with this.

For a 48"x92", graphic as pictured - \$250.00 +gst

For a 60"x92", graphic as pictured - \$350.00 +gst (?)

If you like the 60" version, I will confirm the cost of the board, as 60" in this product is a special order and prices change regularly (this price is based on the last time I got a quote from supplier but I will confirm price before proceeding if this is your choice.)

Should you decide you would like it laser cut to the shape of the graphic, our office will have to out source that, but I can get a quote.

Should you decide to put donors **names** on the back side of the sign, I will include that in the prices quote above and I am donating my time & layout work for this project.

Thank you for the opportunity to quote for this project.

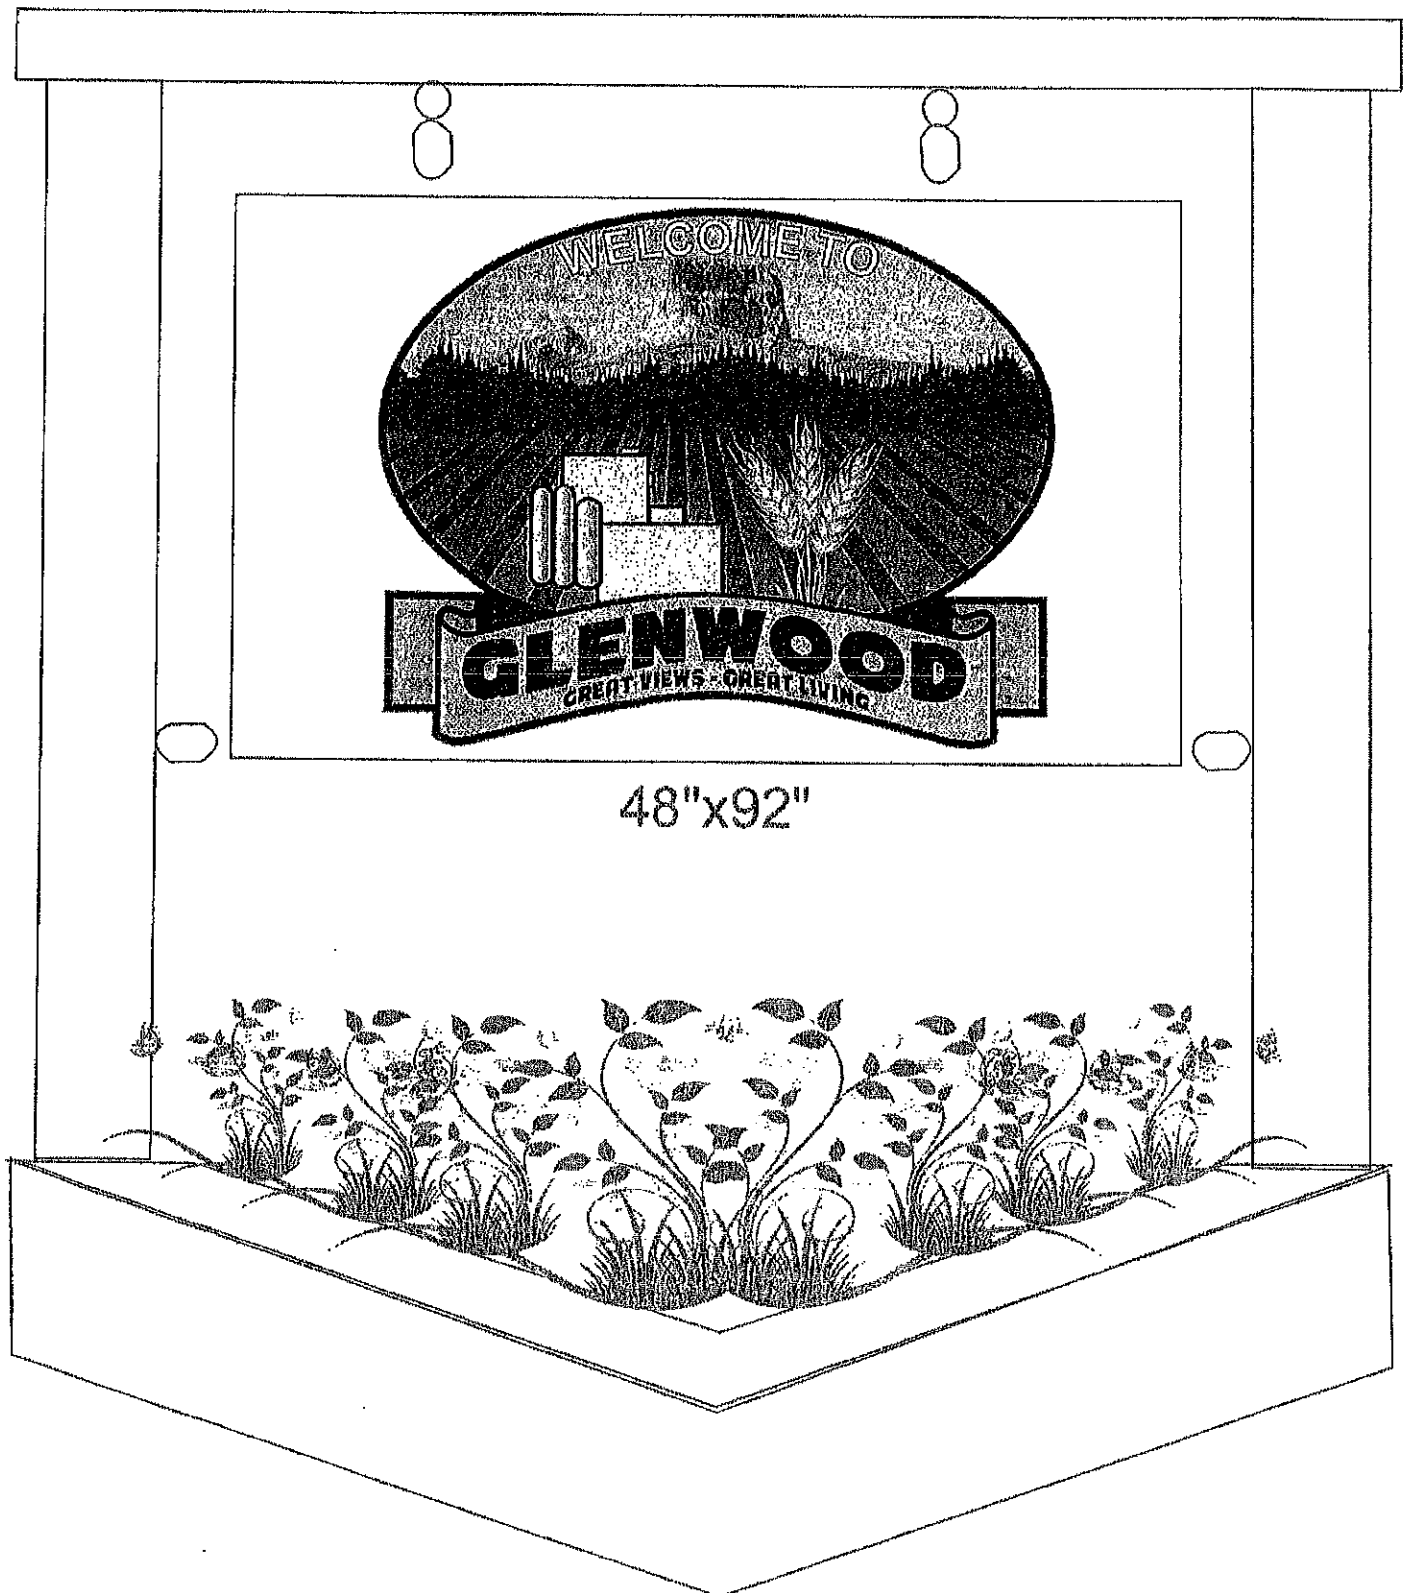

Beverly Ehret, O/O
