

**Report to Council**

**Submitted by C. Vizzutti**

**Chief Administrative Officer**

**May 11, 2023**

Agenda, May 11, 2023

Item 7a) Asphalt on East side of town – this asphalt is mixed with sand, pit run and gravel and cannot be used for road repair in the Village. Efforts are underway to see if anyone would want to use this for fill. If there is no takers the Village must have this hauled to a landfill. This cannot remain where it is now placed.

Item 7 b) Well replacement versus repair. Repairing the leaking water well is not an option. This well is over 40 years old and must be replaced this fall. Replacement costs are estimated at \$75,000.00. Grant funding is available.

Item 7c) Community Foundation Grant in the amount of \$14,600 which has not yet been expensed on the rink upgrade. An extension to December 31, 2023 has been obtained.

Item 7d) 5<sup>th</sup> on 5<sup>th</sup> grant for summer employment has been obtained.
