RE: ATCO Gas and Pipelines Ltd. Natural Gas Distribution Franchise Agreement

As you are aware, ATCO Gas pays the Village of Glenwood a franchise fee. The franchise fee is collected from customers in Glenwood and is based on a percentage of our Delivery Tariff. In Glenwood, this percentage currently is 10.00%.

Our forecast Delivery Tariff revenue for 2024 is \$86,270. Therefore, based on the current franchise fee percentage, your forecast 2024 franchise fee revenue would be \$8,627.

Please note that the forecast 2024 Delivery Tariff revenue can be impacted by changes in customer operations and weather. Additionally, ATCO Gas has utilized forecast 2024 delivery rates, however, they are not yet approved by the Alberta Utilities Commission. ATCO Gas commits to providing updated franchise fee revenue forecasts at a future date should there be material impacts related to the update of these forecast assumptions.

Pursuant to our franchise agreement, you have the option to change the franchise fee percentage in 2024. A request to change the franchise fee must be received by ATCO in writing prior to November 1, 2023. If you are considering changing the franchise fee in 2024, please contact us as soon as possible to begin the process.

We trust you will find this information useful, and, if you have any questions or require anything further, please do not hesitate to contact me at Dan.Magnan@atco.com.

Yours truly,

Dan Magnan

Detachment Commander
Cardston, Alberta

Dear Mayor, Reeve and Council

Please find the quarterly Community Policing Report attached that covers the April 1st to June 30th, 2023 reporting period. The attached report outlines a quarterly snapshot of the human resources, financial data and crime statistics for the Cardston RCMP.

As part of the Alberta RCMP's ongoing priority to ensure public safety, encouraging citizens to report all crimes plays a vital role in building community well-being. We recognize that non-urgent crimes such as minor thefts and property crime may go unreported due to various reasons such as perceived insignificance or fear of inconvenience. Thus, the Alberta RCMP continues to engage citizens on the importance of reporting non-urgent crimes to help us optimize our crime prevention efforts.

To help facilitate this, we have made reporting of non-urgent crime easier through the Alberta RCMP APP (available as a free download on the [Apple App Store](#) or [Google Play](#)). Online crime reporting offers a convenient way for citizens to report non-emergent crime to Alberta RCMP from their computer or smartphone without having to phone or visit the police detachment.

An informed community is a safer community. Here are some reasons why online reporting of non-urgent crimes matters:

- Alberta RCMP police officers in the Call Back Unit are responsible for investigating online crime reports, thus reducing the need for frontline police officers to respond. Encouraging the public to use online crime reporting gives the Detachment frontline officers an opportunity to spend more of their time for proactive policing activities in the community.
- Non-urgent online crime reporting also has the potential to reduce those same non-urgent phone calls to our 911 Operators (OCCS) and Detachment Staff.

- The Alberta RCMP encourages citizens to report every crime to allow us to leverage reliable data to identify patterns and trends in criminal activities in our communities. We also use this intelligence to distribute our resources strategically and ensure that our police officers are deployed where they are most needed.

Thank you for your ongoing support and continued guidance in ensuring that we are consistently meeting your community's evolving policing needs. As the Chief of Police for your community, I invite you to contact me should you have any questions or concerns.

Community Priorities

Priority 1

Overall Road Safety

Current Status & Results

All road safety initiatives are on track to meet or exceed expectations. While tickets are at almost half of the target for the year in Q1, impaired and IRS files are lacking but on track. Members will be encouraged to continue in their efforts to detect and deter impaired driving by being 100% compliant to the MAS legislation when completing traffic stops.

Priority 2

Crime Reduction

Current Status & Results

Some of the notable drug interdiction activities last quarter were surveillance of problem properties, ongoing contact with prolific offenders and increased patrols in areas known to attract drug users. No case seizures and charge files have both been completed along with members administering naloxone. Cardston RCMP continues to support and work with BTPS in relation to their current state of emergency. Rural patrols are again a focus to ensure that we have a presence at least once per day in our out lying communities. Rural patrols combined with traffic enforcement ensure visibility in these areas and are a deterrent to rural property crime. This initiative is on track to surpass its target number.

Priority 3

Be Clear, Accountable, and Transparent

Current Status & Results

No community halls were completed in Q1. School visits will grossly exceed the target amount which will benefit youth and community engagement. School talks will ramp up in the fall as school starts back for the year with the local schools deciding what they would like the RCMP to speak on in their classes. As the number of talks is set at 2/ school/ member the target number will likely be met but not exceeded. Community safety presentations will be given during the Town Halls as such none have been completed at this time. Local media releases are on track and have been focusing on crime trends and public service announcements like road safety and the online crime reporting tool.

Crime Statistics¹

The following table provides policing statistics on actual offences within the periods listed. Please see Appendix for additional information and a five-year comparison.

¹ Data extracted from a live database (PROS) and is subject to change over time.

Trends/Points of Interest

While lower numbers or a trend to lower crime is typically good, Traffic and CDSA offenses listed above are more often than not self generated in that Police will generate these files without the general public calling them in. Cardston is currently down two positions out of the seven front line positions so roughly 30%. Once these positions are filled, there will be more self generated work which will increase these number. These numbers also do not include numbers generated by the Traffic Section of the RCMP and or the Alberta Sheriffs.

Provincial Police Service Composition Table²

Staffing Category	Established Positions	Working	Soft Vacancies ³	Hard Vacancies ⁴
Police Officers	9	7	1	1
Detachment Support	2	2	0	0

² Data extracted on June 30, 2023 and is subject to change.

³ Soft Vacancies are positions that are filled but vacant due to maternity/paternity leave, medical leave, etc. and are still included in the overall FTE count.

⁴ Hard Vacancies reflect positions that do not have an employee attached and need to be filled.

Comments

Police Officers: Of the nine established positions, seven officers are working with one on special leave (One Medical Leave). There is one hard vacancy detected at this time.

Detachment Support: Of the two established positions, two resources are working. There is no vacancy detected at this time.
